«International Board Program»

Enhancing Board Governance of

Internationally Oriented and **Large Privately Owned** Corporations.

International Board Program (IBP)

What we provide in the program

The International Board Program (IBP) course offers an opportunity to update and enhance one's governance, management oversight and leadership skills. It represents a platform for participants of private and/or family businesses to enrich their knowledge with elements necessary for dealing in an international business environment. In a nutshell: Board practices for sustainable expansion and long-term business success.

Why choosing our program

The recent developments in the corporate governance field have brought new challenges for both executive and non-executive directors. Within the international business dynamics, besides requiring a proper dialogue with several stakeholders, governance roles entail a strong accountability characterized by a «sustainable success» and «ethical compliance» orientation. The role of board of directors is changing considerably. Our program provides you with insights into emerging topics and «hands-on» board practices to meet the many challenges you face in such a position. Therefore, all our speakers are experts in their fields and have practical board experience.

How is our program structured

The course program provides directors with four-day of interactive and multifaced lectures from faculty members of two of the most recognized European academic institutions: SDA Bocconi (Milan) and the Institute of Law and Economics at the University of St.Gallen (St.Gallen).

Multiple networking opportunities and experienced guest speakers will make IBP the perfect environment for fast-paced learning.

To whom is the program designed for

The program is tailor-made,

- for board of directors, group executive management, and senior group leaders; and
- for key (family) shareholders

of European private and/or family-owned corporations with a high stake in international business operations in the European or Global market.

The IBP academic directors are aware of the considerable size and life complexities of internationally oriented corporations, where strategic and operational decision-making becomes complex and «win-win» situations require priorities (in the sense of a wide stakeholder approach).

Information and Agenda

Structure and topics covered

The IBP will take place over four full days with classroom lessons for a total of 16 modules. In order to provide the utmost international experience to participants, out of the four days, the first two will be held at SDA Bocconi Milan (Italy) and the other two at University of St.Gallen (Switzerland).

SDA Bocconi Module	University of St.Gallen Module
Milan (Italy) <ul style="list-style-type: none">• Thursday, 11 July 2024• Friday, 12 July 2024	St.Gallen (Switzerland) <ul style="list-style-type: none">• Thursday, 5 September 2024• Friday, 6 September 2024
Day 1: <ul style="list-style-type: none">• The value creating governance: essential competences for the design of a balanced board of directors• Governance in family contexts: ownership, values and succession• Key governance roles: interaction and behavior towards stakeholders• Governance in corporate groups: structures and mechanisms in an international framework Day 2: <ul style="list-style-type: none">• Global challenges and macro trends: governance in a volatile and uncertain world• Governance and risk management: definition, assessment, monitoring and internal control systems• ESG strategies for an international purpose of value• Sustainable effectiveness in terms of ESG planning and reporting	Day 1: <ul style="list-style-type: none">• Board governance: effective boardroom processes• Governing corporate AI: preventing risk, streamlining benefit• Case study on owner involvement• M&A for business expansion Day 2: <ul style="list-style-type: none">• International trade policies and demographic challenges• Cyber risk• Culture and compensation• International tax strategy

Benefits in participating

By representing real corporate situation in a safe space and by allowing participants solving specific problems, the IBP intends to provide practical inputs that can be applied one-to-one in boardroom situations.

Benefits for the participants	Benefits for the corporation
<ul style="list-style-type: none">• Becoming a qualified expert for international board governance practices.• Experiencing first-hand two of the most recognized executive education realities in Europe and their respective outstanding faculty.• Having an ongoing networking opportunity and a qualified exchange with other governance professionals that belong to similar corporate realities.	<ul style="list-style-type: none">• Strengthening governance skills within boards of directors and corporate functions, particularly on emerging issues (e.g. sustainability, tax, risks).• Providing board members of large private and family businesses with the capabilities needed to ensure solid governance in periods of internationalization.• Exchanging opportunities with other corporations in different fields and geographic areas.

Certificate of participation

The certificate – presented in both print and digital forms – is a useful way to enhance your CV and portfolio of educational experiences. It is granted to participants who have attended at least 80%. The certificated will be provided by both, the SDA Bocconi and Institute of Law and Economics at the University of St.Gallen.

Fees and registration

The fee for the IBP course is EUR 8'000 (for all 16 modules/ 4 days of program).

Seminar materials, refreshments and light lunches are included. For participants attending online, the program fee remains identical. The seminar documents are provided exclusively electronically. Only registered participants will have access to the seminar platform.

Registration for the IBP takes place online. After registration, participants will receive an invoice, which also serves as confirmation of registration.

Registration: www.ile.unisg.ch/ibp
